

PetraDiamonds

Building a world-class diamond group

Cullinan Diamond Mine

Cullinan Diamond Mine is situated in the town of Cullinan 30km east from Pretoria. The Mine is using mechanised trackless block-cave mining.

Boilermaker (Retreat Plant)

The successful candidate will be required to develop, fabricate and maintain equipment according to sound engineering practices and equipment specifications in their area of responsibility (Retreat Plant).

Tasks and responsibilities: • Investigate, diagnose and perform trade-related maintenance and repair of equipment and machinery according to maintenance requirements • Perform inspections in accordance with the Mine Health and Safety Act regulations, manufacturing and Company standards • Perform maintenance repairs, fabrication and installation work on all assigned equipment • Report all defects and breakdowns on equipment and machinery to the Foreman • Develop, modify, construct and install related equipment required for the safe operation of all engineering equipment • Identify spares requirements and order according to departmental procedure • Communicate with clients and supervisors to inform on maintenance activities performed and re-start of equipment • Create and maintain job cards • Ensure personal and co-workers' adherence to and compliance with Security and Company's SHE objectives • Work overtime, standby and be available for call-outs should the need arise.

Minimum requirements: • Qualified Plater/Boilermaker Trade Certificate through a recognised institution and apprenticeship** • 2 years' post-apprenticeship experience • Experience in a plant environment – please indicate on CV • Valid driver's licence.

** Candidates holding a QCTO (Section 26D) Trade Test, where the learning route is not specified on the Certificate, must submit the following: Statement of results issued by an accredited MQA trade test centre as well as evidence of training conducted at a technical training centre (eg Portfolio of Evidence, Logbooks).

Other skills/competencies: • Ability to communicate in English (written and verbal) • Ability to fabricate and install from drawings • Shaft experience will be advantageous • Pass Vienna Assessment (level 2) – this assessment will be done on Mine • Ability to obtain licences to operate heavy lifting equipment such as overhead cranes, mobile loader with jib and Manitou • Independent, proactive thinking and ability to do own job planning and plan job in advance • High level of multi-skilling and a good team player • Ability to read construction drawings. (Ref. CUL247)

Applications: e2-recruitment@petradiamonds.com or fax: 086 659 1334

C & I Technician

The incumbent will be required to maintain and improve Control and Instrumentation infrastructure within Cullinan Diamond Mine.

Tasks and responsibilities: • Diagnose faults on industrial instrumentation and control equipment and carry out repairs accordingly • Plan extensions and modifications to existing instrumentation infrastructure • Examine, test and repair control and instrumentation equipment as well as Siemens PLC and Adroit SCADA system • Maintain instrumentation documentation • Install and maintain industrial instrumentation in the plant and underground operations • Perform standby duties and shift work as and when required • Ensure personal and co-workers' adherence to and compliance with Security and Company's SHE objectives.

Minimum requirements: • Relevant Trade Test Certificate** (Instrumentation and Process Control) with N6 Diploma in Instrumentation and Process Control, OR • S4 (National Diploma and Trade Test Certificate** (Instrumentation and Process Control) • Minimum of 5 years' relevant experience • Sound knowledge of industrial instrumentation and X-ray diamond recovery machines • Sound knowledge of Siemens S7 PLC hardware and software • Knowledge of Adroit and WINCC SCADA software configuration • Valid driver's licence (Code 08/EB).

** Candidates holding a QCTO (Section 26D) Trade Test, where the learning route is not specified on the Certificate, must submit the following: Statement of results issued by an accredited MQA trade test centre as well as evidence of training conducted at a technical training centre (eg Portfolio of Evidence, Logbooks).

Other skills/competencies: • Sound verbal, written and interpersonal communication skills in English • Sound process instrumentation fault-finding skills in a Siemens PLC environment • Ability to work in a team as well as alone. (Ref. CUL248)

Applications: e1-recruitment@petradiamonds.com or fax: 086 692 2442

Lead Electrician (MV) – Re-advertisement

The incumbent will be responsible for installation and maintenance of electrical infrastructure and will be required to maintain various plant and project installations according to sound engineering practice and equipment specifications.

Tasks and responsibilities: • Investigate, diagnose and perform trade-related maintenance and repairs to equipment and machinery according to maintenance requirements • Perform inspections in accordance with the Mine Health and Safety Act regulations, manufacturing and Company standards • Report all defects and breakdowns on equipment and machinery to the Foreman • Develop, modify, construct/fabricate and install related equipment required for the safe operation of all engineering equipment • Identify spares requirements and order according to departmental procedure • Communicate with clients and supervisors on maintenance activities performed and equipment handover • Work according to the Mine's Code of Practice, and report any observations of this not being done • Ensure personal and co-workers' adherence to and compliance with Security and Company's SHE objectives • Work overtime, do standby and be available for call-outs should the need arise.

Minimum requirements: • Qualified Electrician with Trade Certificate at recognised/accredited institution • Valid Public Driver's Licence (Code EB 08) • 5 years' experience as an Electrician in a plant/project environment • At least 3 years' experience in the maintenance and operation of MV switchgear and distribution transformers • At least 3 years' experience in MV switching with valid ORHVS certificate • Knowledge of basic protection schemes and metering systems • Proven ability to understand MV panel control wiring circuit diagrams • Ability to do fault finding on MV control panel should be seen as major advantage • PC literate with working knowledge of Microsoft Office (MS Word, Excel, PowerPoint) and Windows system.

Other skills/competencies: • Pass Vienna Assessment (Level 2) - (test to be tested on mine) • Ability to communicate in English (written and verbal) and one other official language • Planning, leading and organisational abilities • Independent, proactive thinking, motivated and ability to do own job planning • Electrical construction work and planning thereof. (Ref. CUL251)

Applications: Christine.williams@petradiamonds.com or fax: 086 692 2442

Cullinan Diamond Mine is an equal opportunity employer. Preference will be given to suitable candidates from the designated groups in line with the Company's Employment Equity Policy and Plan. Pre-screening, profile testing, assessments, medical and security clearance will form part of the recruitment and selection process. Short-listed candidates will be required to attend a panel interview. Employment of the successful candidate is subject to passing on Mine induction and the aforementioned criteria. Preference will be given to candidates who reside within our host labour sending area of Tshwane Municipality (proof of residence may be requested).
