R322 million set aside to improve ambulance services

The Department of Health has set aside R322, 404 million to restructure Emergency Medical Rescue Services (EMRS) to serve rural communities better.

Part of restructuring plans includes establishment of a single emergency call centre and procurement of new ambulances.

Speaking at the Provincial legislature on Tuesday, 2 May 2017, MEC Magome Masike

said EMRS assessment has identified communication as a major challenge that affects functioning of EMRS and response to emergency calls.

“We will establish a single central call centre to manage our communication challenge so that ambulances can respond swiftly,” Masike said.

To further boost EMRS services, the department will purchase additional 40 ambulances.

Building a world-class diamond group

PetraDiamonds

Cullinan Diamond Mine

Cullinan Diamond Mine is situated in the town of Cullinan, 30km east of Pretoria. It is currently mining at a depth of 747 metres, using mechanised trackless block-cave mining.

Boilermaker

Maintenance Boilermaker Section

The successful candidate will be required to develop, fabricate and maintain equipment according to sound engineering practices and equipment specifications in their area of responsibility.

Tasks and responsibilities: • Investigate, diagnose and perform trade-related maintenance and repair equipment and machinery according to maintenance requirements • Perform inspections in accordance with the Mine Health and Safety Act's regulations, as well as manufacturing and Company standards • Perform maintenance repairs, fabrication and installation work on all assigned equipment • Report all defects and breakdowns on equipment and machinery to the Foreman • Develop, modify, construct and install related equipment required for the safe operation of all engineering equipment • Identify spares requirements and order according to departmental procedure • Communicate with clients and supervisors to inform on maintenance activities performed and restart of equipment • Create and maintain job cards • Ensure personal and co-workers' adherence to and compliance with security and the Company's SHE objectives • Work overtime, be on standby and be available for call-outs should the need arise.

Minimum requirements: • An N2 Certificate • A qualified Plater/Boilermaker Trade Certificate through a recognised institution and apprenticeship (candidates holding a QCTO (Section 26D) Trade Test, where the learning route is not specified on the Certificate, must submit a statement of results issued by an accredited MQA trade test centre as well as evidence of training conducted at a technical training centre, eg Portfolio of Evidence, Logbooks) • 2 years' post-apprenticeship experience • Experience in a plant environment (please indicate on CV) • A valid driver's licence.

Other skills/competencies: • The ability to communicate in English (written and verbal) • The ability to fabricate and install from drawings • Shaft experience will be advantageous • Passed Vienna Assessment (level 2; this assessment will be done on the Mine) • The ability to obtain licences to operate heavy lifting equipment such as overhead cranes, mobile loader with jib and Manitou • Independent, proactive thinking and the ability to do own job planning and plan job in advance • A high level of multi-skilling and a good team player • The ability to read construction drawings.

PetraDiamonds

Petra Diamonds Limited is one of the world's leading suppliers of rough diamonds and one of the largest independent diamond groups by resource. It's polished diamonds we're after for these roles - persons that clearly outshine their peers:

Finsch Diamond Mine

Finsch Mine is located in the town of Lime Acres, which is situated 160km north west of Kimberley and 109km south of Kuruman in the Northern Cape.

Chief Safety Officer: Risk Management

Tasks and responsibilities: • Manage the Safety Section • Conduct accident investigations • Implement Hazard Identification and Risk Assessment programmes • Implement the Mine's Behaviour-based Safety System • Develop and manage Safety Systems and Risk Management programmes and systems to ensure achievement of objectives, by establishing and implementing approved medium and long-term plans, aligned to the Company's strategic business goals • Provide specialist technical knowledge and advice to all levels of Management and resolve a wide range of safety and risk management-related challenges and interfacing issues, requiring solutions for new projects, unusual conditions and corrective measures • Manage the Company's Safety and Risk Management programmes to maintain and exceed the Mine's OHSAS18001 and corporate standards by: * Continually reviewing programmes and implementing adjustments to ensure alignment with developments on the Mine, in industry and safety standards * Analysing trends, interpreting results and implementing recommended corrective action mine-wide * Facilitating change processes to ensure continuous improvements to internal control systems, employee participation and management support * Implementing safety-related policies, procedures, control standards and measures • Develop effective working relationships with consultants, DMR and other governmental authorities and participate in seminars/forums to keep abreast of developments within the industry • Understand and interpret all relevant safety-related legislation, regulations and standards as these apply to the Mine's operations, confirm interpretation with the Inspector of Mines and Machinery and manage implementation on a mine-wide basis • Establish systems to monitor and assess understanding of and continuous compliance with legislation regarding safety and hygiene by employees, and recommend changes to policy/strategy to ensure compliance.

Minimum requirements: • A BTech in Safety Management • COMSOC 1&2/SAMTRAC/SHEMTRAC or similar • A Blasting Certificate for Scheduled Mines will be advantageous • At least 5 years' experience in safety management in the mining industry, especially in an underground mine • A valid driver's licence • Registration as a Safety Professional with IoSM will be an added advantage.

Other skills/competencies: • Professional knowledge of safety aspects, with experience in integrated HSE management systems in a mining environment • Good written and verbal communication skills in English and the ability to interact at all levels (both internally and externally) • Computer literacy • Meet the requirements of the appointment of Chief Safety Officer in terms of the Mine Health and Safety Act. (Ref. FIN273)

Applications for this post: e1-recruitment@petradiamonds.com or fax: 086 692 2442

Senior Officer: SHE Hygiene

The successful candidate will initiate, assist, advise, investigate, implement, audit and over-inspect the ventilation system and associated activities within the area of responsibility.

Tasks and responsibilities: • Carry out inspections and report on all matters concerning ventilation • Investigate all incidents which may occur relating to ventilation • Make recommendations on routine inspections concerning ventilation • Assist with internal/external audits • Coordinate ventilation in the working place • Be prepared to work odd shifts and be on standby as per the departmental requirements • Implement an effective ventilation system in compliance with relevant legislation and controls.

Minimum requirements: • A minimum of a Grade 12 with Maths and Science as subjects • A Chamber of Mines Certificate in Mine Environmental Control • At least 5 years' experience in a hygiene discipline in mine environmental control • Experience in the design and implementation of a ventilation project (please indicate on your CV) • A valid driver's licence • Computer literacy in the MS Office Suite and in Ventsim (or similar application) – please indicate on your CV • A valid Permanent Blasting Certificate will be an advantage.

Other skills/competencies: • Good verbal and written communication in English • Working knowledge of the MH&SA, OHS Act, ventilation and hygiene regulations • Strong interpersonal and organisational skills • A sense of accuracy and attention to detail (able to handle stress) • The ability to function on own and as part of team. (Ref. FIN274)
