

Join BirdLife Rustenburg

Rustenburg – BirdLife Rustenburg's October meeting will be held, as usual, at the Rustenburg Methodist Church, cnr Brink and Schuurman Streets, on 16 October commencing at 19h00. This month will see Shaun McGillewie and Brink Jordaan (two of our most experienced members) talking on the subject of Raptors. The presentation will cover, in detail, 32 Raptors all of which can be found within a 100km radius of Rustenburg.

So if you want to know more about Raptors and how to identify them, this is the meeting for you! All are welcome with a donation of R20 for non-paid up members. Tea and snacks will be served after the meeting. The October outing will be held on the weekend of 20-22 October and will be to Nylsvley Nature Reserve. This reserve is situated in the 70km long Nyl Floodplain. It is one of SA's largest and least impacted wetlands (4000 hectares) and is also a Ramsar Site (a wetland of International

importance). Apart from the almost 400 species of birds there are also over a thousand large mammals including breeding herds of Tsessebe and Roan antelope. Target species will be all water birds but with emphasis on the members of the Crake family.

BirdLife Rustenburg will be camping at the reserve and will meet there on the Friday. Bring along everything that you will need for the weekend. They leave for home on the Sunday morning. There is a small entrance fee to the Park and a R20 donation for non-paid up members. All are welcome to what should be a very productive outing.

Should you wish to learn more about, participate in any of our events or if you have any birding topics to report or need help with identification of a bird (a picture will help), please feel free to contact BirdLife Rustenburg's chairperson, Shaun McGillewie on 083-702 1462.

Long Crested Eagle

Pam's purple wreath

Rustenburg – Twenty years ago, Pam van Heerden and her husband planted this Queen's Wreath in Wilgerivier avenue, Rustenburg.

"It never gets old to admire this wondrous vine – even twenty years later," Pam said in an interview with the *Platinum Weekly* newspaper. "We bought the vine from a local nursery. It only blooms once a year in September. This year our Queen's Wreath bloomed the most beautiful yet!"

A Queen's Wreath (*Petrea Volubilis*) is a stunning tropical vine that resembles wisteria with its drooping lavender flowers. You may know this vine by one of its other common names: Petrea, purple wreath, or sandpaper vine.

The name sandpaper vine refers to the texture of the plant's leaves which are stiff and feels, as the name suggests, like sandpaper.

To our readers Pam says: "Enjoy Rustenburg's beautiful trees and surroundings. Talk a stroll around town and have a look at the precious trees – learn to appreciate them."

Twenty years ago, Pam van Heerden and her husband planted this Queen's Wreath in Wilgerivier street, Rustenburg.
