The Greatest Gift

4 Love suffers long and is kind; love does not envy; love does not parade itself, is not puffed up; 5 does not behave rudely, does not seek its own, is not provoked, thinks no evil; 6 does not rejoice in iniquity, but rejoices in the truth; 7 bears all things, believes all things, hopes all things, endures all things. 8 Love never fails. But whether there are prophecies, they will fail; whether there are tongues, they will cease; whether there is knowledge, it will vanish away. 9 For we know in part and we prophesy in part. 10 But when that which is imperfect has come, then that which is in part will be done away.

Africa’s largest vulture relocation project gets the green light

Hartebeespoort / Eastern Cape - The largest relocation of vultures ever undertaken reached a critical milestone when approval was granted to move a first tranche of 155 birds to a new home in the Eastern Cape. Now that the Department of Forestry Fisheries and Environment has given the green light, work is underway on a bespoke facility at Shamwari Private Game Reserve adjacent to its existing Wildlife Rehabilitation Centre. Vulpro at Shamwari will be the new home for the Cape and African White-backed Vultures, which will be transported from their current home at VulPro's Hartbeespoort Dam facility in late January during the first phase of the two-year relocation programme. VulPro is the only vulture conservation facility of its kind on the continent and is spearheading population restocking and supplementation to address the severe decline of African vulture species. VulPro CEO, Kerri Wolter, says that the partnership with Shamwari will create a safe area for both in-situ and ex-situ conservation programmes. "Vultures, with their important and efficient ecosystem services, are a significant addition to the ethos Shamwari has created in restoring a natural and well-balanced ecosystem. In addition, the stability and financial support that Shamwari brings provide sustainability to VulPro's breeding programme and the future of vultures in South Africa." She explains that the vultures being moved to VulPro at Shamwari are all non-releasable breeding birds. After the Cape and African white-backed vultures move in January, a second phase will see non-releasable breeding pairs of Lappet-faced, White-headed, and Hooded Vultures, and some additional White-backed Vultures being relocated. The Cape Vulture offspring will be released on Shamwari and will all be fitted with tracking devices. The remaining species' offspring will be transported back to VulPro's Hartbeespoort facility, where they will be sent to release sites that the National Vulture breeding Steering Committee has identified as areas where the species need bolstering and support. Joe Cloete, Shamwari CEO, says that in conservation terms, the project is as significant as anything that has been done on

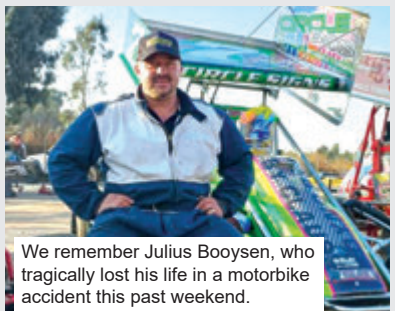

the reserve over the past 30 years. The Shamwari conservation project began in 1992 when it started trying to reverse nearly 300 years of human impact by reintroducing elephants, white rhinos, and hippos in 1992. Black rhinos and buffalo followed in 1993/4. Cheetahs, lions, and brown hyenas were brought back in 2000, and servals and leopards the next year, making Shamwari the first big-five game reserve in the Eastern Cape. "Vultures play a vital role in maintaining a healthy ecosystem, are part of our natural heritage, and are severely threatened. I cannot overstate how reintroducing Cape Vultures is a critical step in the continuing evolution of our conservation journey and enhancing the ecological importance of the reserve," says Cloete.

VulPro, press release, 26 October 2023.

FIRE CLAIMS A FAMILY OF FIVE AT A HARTBEESPOORT SHELTER

Photo taken by Hartbeespoort Emergency Medical Services.

Hartbeespoort - A heart-rending incident unfolded on the evening of Sunday 29 October at the Purple Moss shelter for the homeless near Hartbeespoort. A young couple, along with their three children - two girls, aged 2 and 3, and a boy aged 8, tragically lost their lives in a fire that consumed their living space. The family found themselves trapped inside the burning building, seemingly unable to find the key to their security door. Eyewitnesses from the Purple Moss shelter relayed distressing accounts of their fervent attempts to rescue the family. Regrettably, despite their efforts, the situation was overwhelming. The fire, which is believed to have ignited from a candle, reportedly started just before 21:00, aligning with the timing of load-shedding. The father's pleas

for assistance alerted nearby residents, but the family's security gate was locked. The flames quickly spread to neighbouring rooms and other parts of the shelter. Both the Hartbeespoort Emergency Medical Service (HEMS) and the Madibeng Brits Fire Department responded promptly, battling to put out the fire. Despite their efforts, the family was tragically pronounced dead at the scene. Police spokesperson colonel Adele Myburgh reported: "Another resident allegedly went outside his room, when he noticed the room was engulfed in flames. Efforts to break open the room was unsuccessful. After the fire was extinguished, paramedics declared all five family members dead on the scene".

JST guarantees uninterrupted service delivery amid water scarcity challenges

Rustenburg - Job Shimankana Tabane (JST) Hospital has been approved and gazetted as a 390-bed hospital. JST has been serving as a vital referral hospital in the Bojanala District. With a population of 1.8 million, the Bojanala District faces challenges in healthcare access, and 90% of the Bojanala District residents remain uninsured. JST has recently faced intermittent water supply disruptions, which posed a potential risk to

jeopardize the hospital's ability to care for patients effectively. In response to these challenges, JST management implemented a series of measures to ensure continuous and reliable water availability in the hospital, as follows: Increased water storage capacity: Invested in new water reservoir tanks with an additional capacity of 60,000 liters. This enhancement significantly improves the

hospital's ability to store water for daily operational needs.

Upgraded water pumping system: To further bolster water supply capabilities, installed new water pumps with a total capacity of 8 kilowatts and replaced the old pump with a more powerful 22-kilowatt pump. These upgrades enhance the hospital's ability to distribute water efficiently throughout the hospital.

Collaboration with the municipality and hospital-arranged water tankers: While the hospital's primary water supply comes from Rustenburg Local Municipality, the hospital recognizes the importance of having contingency plans. In collaboration with both the municipality and the hospital-arranged water tankers, the hospital ensures that the reservoirs remain adequately filled even during supply disruptions," said the acting chief executive officer, Dr George Maesela.

Management reassures the public that, despite the water supply challenges faced by JST, the hospital remains fully operational.

"Long-term water security initiatives: JST is committed to the long-term security of water supply. The hospital's future plans include the installation of a larger reservoir and the drilling of a borehole to ensure emergency water supply capabilities. These initiatives will further fortify the ability to provide consistent care to patients," Maesela concluded.

JST, press release, 30 October 2023.

Rustenburg - On Friday, October 27, 2023, the Play Way Learning Centre was abuzz with youthful energy as grade 3 learners turned into budding entrepreneurs for a day. The school, which caters to students from grade RR to grade 3, hosted its much-anticipated Grade 3 Entrepreneurs' Day. The young entrepreneurs showcased their business skills by selling an array of delightful goodies, including candies, popcorn, burgers, and more. The event aimed not only to raise funds but also to impart valuable financial skills to the children.

Play Way Learning Centre's deputy principal, Joey Stewart, expressed the significance of the day, saying, "It's great to have the entrepreneur day; it helps to teach the kids how to work with money, which is a skill that must be sharpened from an early age. We had one little entrepreneur who showed up with three lollipops, and by selling his lollipops and buying other goodies and selling them again, he put R70 in his pocket—what a salesman!"

The event was not just a learning experience for the children but also a heartwarming family affair. Many parents attended to support their children's sales endeavours, adding to the festive atmosphere, and the school's own Pirate Dancer made a special performance! Additionally, Local Choice Pharmacy Mountain View generously sponsored a R500 voucher towards the school, further enhancing the success of the day. Play Way Learning Centre's Grade 3 Entrepreneurs' Day proved to be a fun-filled educational experience, instilling valuable lessons about money management and entrepreneurship in the young minds of tomorrow.

Rustenburg Cycling Club's Luyt family joins Rhino Conservation Ride

From the left: Stuart Luyt, Richard Luyt, and Tamlyn Luyt.

Stuart Luyt.

Rustenburg - Over the past weekend, the Luyt family, who are members of the Rustenburg Cycling Club (RCC) community, took part in the Rhino Conservation Ride. In 2013, the Tour de Pilanesberg Wilderness (TdPW) was conceived as both a dream and a fundraiser for rhino protection in Pilanesberg. The ambitious goal was to organize a cycling event that would immerse participants in the heart of the wilderness, where rhinos were most vulnerable to poaching. The tragic history of rhino poaching in the Pilanesberg dates back to 2010 when the first rhino, Suzie, a beloved black rhino mother, was poached. The situation escalated until 2020 when all the rhinos in Pilanesberg had their horns removed during a massive nine-day operation. What initially began as a small initiative with only six cyclists has evolved into a spectacular event, fueled by word-of-mouth promotion over the past decade, now celebrating its 10th annual edition in 2023. The success of the TdPW owes its gratitude to the Pilanesberg Wildlife Trust (PWT), park management, dedicated cyclists, and volunteers. PWT Manager Perry Dell initiated the TdPW cycle initiative in 2013 to fund rhino protection, coinciding with the rising popularity of cycling as an alternative to golf. Over the course of ten years, the event has reached its peak popularity, capped at 80 cyclists to ensure their safety. Extensive security measures, including aerial support with helicopters, armed ground teams preceding and following the cyclists, and guards at critical points along the route, guarantee the participants' safety. In the 2023 edition, 60 cyclists had one of the most remarkable experiences of their lives, traversing historical poaching sites and the cherished habitats of wildlife like Rain, the recently deceased cheetah that roamed Pilanesberg. Participants encountered an array of wildlife, including rhinos, elephants, buffalo, kudu, giraffes, and even springbok, celebrating the rugby World Cup win. The event has attracted participants ranging from 17 to 77 years of age, representing diverse walks of life, making it a "must-do" for many bucket lists. The success of this event is a testament to the dedication of volunteers and cyclists alike.

Rustenburg - The new Luka Sports Field, constructed for the community by Impala Rustenburg, bore witness to an action-packed showdown on Saturday 28 October 2023, as the Royal Bafokeng Sports Metshameko Programme finals took centre stage. The Royal Bafokeng Sports Metshameko Programme is a community-focussed collaboration between Impala Rustenburg, Royal Bafokeng Sports, and Royal Bafokeng Holdings. After months of dedication, competition, and hard work from the young athletes, the event featured U/13 and U/17 netball and soccer matches, which showcased the carefully nurtured sporting talent of local schoolchildren. The exciting playoffs ended with a grand prizegiving and award ceremony, where the tournament winners were crowned and received trophies, medals, and certificates.

The winning school teams in each category were:

- U/13 netball: Rustenburg Noord Primary School
- U/13 soccer: Photosaneng Primary School
- U/17 netball: Grenville High School
- U/17 soccer: Tshukudu High School.

The 2023 Royal Bafokeng Sports Metshameko Programme kicked off in mid-June and involved more than 2,000 pupils from 30 primary and 23 high schools in the communities around Impala Rustenburg's operations. These young athletes

dedicated themselves to weekly coaching, games, and playoffs, honing their skills and their commitment to sports and teamwork. In total, 424 coaches, including 10 umpires and 12 volunteers, played an indispensable role in ensuring the success of the 2023 programme.

The 16 school teams who made it through the playoffs were:

- U/13 netball: Rustenburg Noord, Seraleng, Banapele and Moremogolo
- U/13 soccer: Platinum Village, Photosaneng, Retlakgona and Tlhage
- U/17 netball: Grenville, Meriti, Lebone II College of the Royal Bafokeng, and Matala
- U/17 soccer: Platinum Village, Tshukudu, Sekete and Meriti.

Moses Motthageng, chief executive of Impala Rustenburg, said: "Congratulations to all the teams that made it through to the finals, and to the champions on the day. The Royal Bafokeng Sports Metshameko Programme is an invaluable initiative, not only for sports development but also for bringing communities together. It fosters a sense of unity and cooperation among our youth, instilling valuable life skills that extend beyond the sports field".
